HOME CARPENTERS VICE KIT

A light compact easy to fit carpenter's vice complete with wooden jaw inserts. Ideally suited to the home handyman. 150 mm (6") Jaw Width.

150 mm (6")

SAW VICE

A very handy vice for the man who maintains his own Hand Saws. The ball pivot allows the vice to be tilted at all angles making sharpening and setting saws a simple operation.

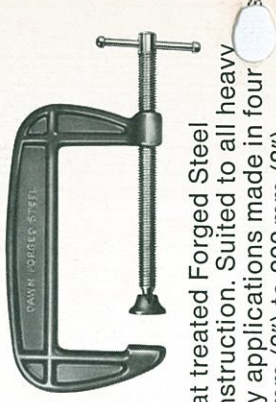

CLAMPS

MALLEABLE 'G' CLAMP

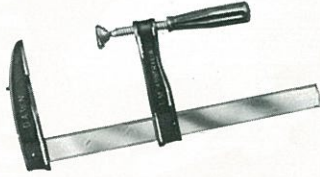

Guaranteed unbreakable. A size range from 65 mm (2-1/2") to 300 mm (12") covers most clamping requirements.

HEAVY DUTY FORGED STEEL 'G' CLAMPS

Heat treated Forged Steel construction. Suited to all heavy duty applications made in four sizes 75 mm (3") to 200 mm (8").

HEAVY DUTY QUICK ACTION CLAMPS

Range
150 mm (6")
to 1000 mm (40")

Designed to save time when clamping articles of varying size. Just slide jaw along bar until contact with work is made, and turn handle to lock. Now fitted with new larger plastic handle for better grip.

LIGHT DUTY QUICK ACTION CLAMP

175 mm (7") Capacity

Unique 'T' Section slide bar gives greater strength. Incorporates a patented non slip gripping device. Ideal for the handyman, cabinet maker, furniture manufacturer, boat builder, etc.
