

# ALIGNING PRY BARS

Designed with line up end for aligning, adjusting and manoeuvring metals or woods. Angled chisel end gives greater leverage when prying.

- Forged from the highest quality carbon steel.
- Full shank heat treated for maximum strength & durability.
- Finished in black oxide to resist corrosion.
- Conform to ANSI and ASTM for steel standards, physical properties and testing.

| PART NO. | DESCRIPTION (MM) | BODY SIZE (B) (MM) | LENGTH (C) (MM) | WEIGHT (KG) |
|----------|------------------|--------------------|-----------------|-------------|
| 40000    | 355 (14")        | 13                 | 355             | 0.3         |
| 40001    | 405 (16")        | 16                 | 405             | 0.6         |
| 40002    | 508 (20")        | 19                 | 508             | 1.0         |
| 40003    | 610 (24")        | 19                 | 610             | 1.3         |
| 75004    | 760 (30")        | 22                 | 760             | 2.3         |
