

# ANGULAR MACHINE VICE

The Angular Machine Vice is ideal for application wherein the work piece requires machining at an angle, which can be easily set through adjustment of the angular slide. The vice is indexed all through vertical  $90^{\circ}$ . Additionally the fully graduated swivel base allows for full horizontal indexing. The angular slide can be easily set to any desired angle  $180^{\circ}$  on either side using the "Hold Down" clamps. Graduations on either side of the angular slide add to the convenience for the user.

PART NO.	VICE SIZE JAW WIDTH MM	MAX. JAW OPENING MM	JAW HEIGHT MM	WT KGS
