

ENGINEERS' VICES - CAST IRON (SEMI-STEEL)

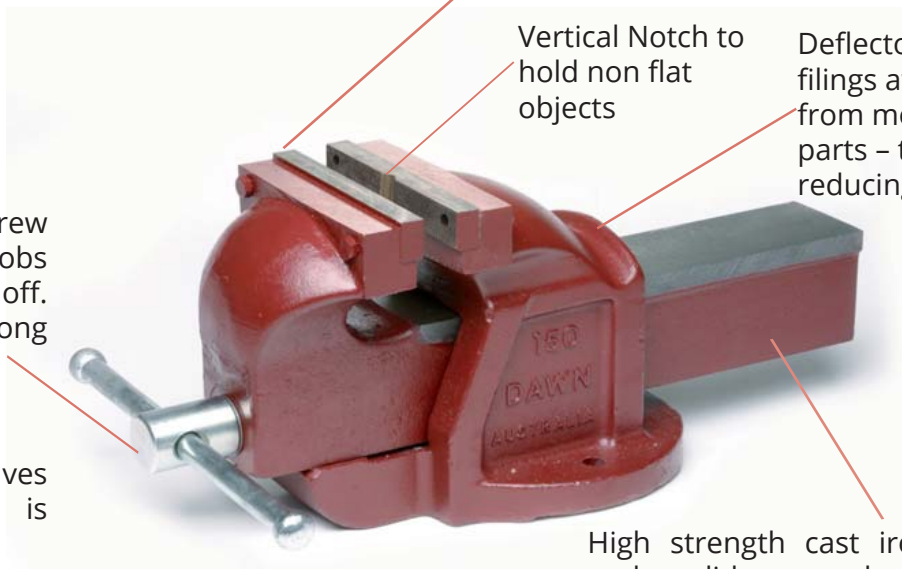

Our most commonly used vices for workshops and garages. DAWN manufacture the most comprehensive range of vices, our 90 years experience in manufacturing vices have gone into design, accuracy, and gripping capacity. DAWN vices are unequalled for quality and value.

Corrosion resistant heavy duty screw and handle. Head of screw and knobs on handle are forged – won't shear off. Fine pitched Acme thread ensure long life and positive action.

Nut is housed in the body and gives long service without wear. Nut is detachable and can be replaced.

Case hardened steel jaws, serrated to provide good grip, removable and replaceable – thus extends life of vice.

Vertical Notch to hold non flat objects

Deflector keeps filings away from moving parts – thus reducing wear.

High strength cast iron body and slide produced by automated foundry ensuring good quality control. Body and slide accurately machined for perfect mating and smooth operation.

PART NO.	VICE SIZE WIDTH MM	MAX. JAW OPENING MM	TYPE	WT (KGS)	OVERALL LENGTH (CLOSED) MM	OVERALL WIDTH MM	OVERALL HEIGHT MM
