

Quick Lever Clamp

- World wide patent protected
- This unique lever clamp has a unique design and a powerful lever handler that makes it easy to put the clamping force where you want it.
- Durable cam type teeth gives incremental and consistent clamping pressure 180 kgs.
- The quick release button makes this clamp as fast to remove as it is to apply.
- The top mounted ergonomic Thermoplastic Rubber(TPR) soft grip handles makes the clamp provide maximum clamping force in one quick movement.
- The jaws comes with cushion grip pads to protect the work pieces.
- High Tech nylon / fibreglass body is very sturdy and temperature resistant.
- Strong carbon steel bar, heat treated and coated with black oxide to prevent rusting.

Part No.	Description	Jaw Opening max. mm	Throat Depth (mm)	Clamping pressure kgs
61130	Quick level Clamp 150mm	150	80	180
61132	Quick level Clamp 300mm	300	80	180
61134	Quick Gear Clamp 450mm	450	80	180
