

DAWN Safety Hand Guard

to suit Dominator Pry Bars

- Protects Dominator Prybar user's hand from impact forces, falling debris etc
- Easy to fit
- Unique, purpose built, polyurethane resin design for durability and comfort
- Dual pad for extra protection - lessens the transfer of impact forces to the hand

Part No	To Suit Dominator Model No
40146-SHG	40146
40162-SHG	40162
40164-SHG	40164

How to attach Safety Hand Guard to Pry Bars

1.

Immerse in boiling water for minimum 3 minutes.

2.

Put Hand Guard over Dominator blade - ensure blade width is located diagonally across the Hand Guard cavity.

WARNING: Handle is hot to touch - use glove.

3.

Carefully push Hand Guard to desired location and then rotate to ensure Dominator blade edges match Hand Guard edges.

WARNING: Care must be taken to ensure blade does not slip through Hand Guard and injure operator during this process.

5.

To modify location immerse Hand Guard in boiling water, or pour boiling water over it until it softens sufficiently to move to desired location.

Allow to cool before use.
